

G2 ProProducts® Quick Change Blade Holder

Narrow Web

Great Innovation for the Narrow Web Printer

The G2® Narrow Web Quick Change Blade Holder is engineered with easy-to-use features that assure even, flat, and parallel blade setups every time - allows for quick and easy blade changes.

Standard Features

- Single-action cam release assures quick and accurate doctor blade changes every time.
- No bolts to loosen and tighten.
- Reduces blade change times to just a few minutes.
- Ability to preset blade angles to improve ink metering.
- Thousands already in service in the industry.
- Disassembles in seconds for easy cleaning.
- Cost-effective retrofit for any OEM or custom application.

Your experts for pressroom
efficiency through
advanced technology ink
metering solutions.
