

G2 ProProducts[®] Tubing

Improve Your Pressroom Productivity

Great Fluid Transfer Solutions

We offer two varieties of our G2[®] Tubing that is smartly designed with memory materials allowing for even flow and maintenance. It is excellent for a multitude of inks and fluids.

Your experts for pressroom efficiency through advanced technology ink metering solutions.

Standard Features

PROTHANE II Flexible Tubing

- A transparent blue polyester, polyurethane tubing that exhibits excellent abrasion resistance and resilience to continuous flex and impacting experienced in peristaltic pumps. This specially designed tubing allows for elastic recovery following compression exhibiting a long life.

Available Sizes:
Standard: 1/2" ID x 3/4" OD
Large: 3/4" ID x 1.0625" OD
Length Segments: 50ft

E-D Plex Flexible Tubing

- A thermoplastic black rubber tubing that is ideally suited for use with aqueous fluids. This particular tubing has proven to be successful in peristaltic pump applications where continuous flexing is required.

Available Sizes:
Standard: 1/2" ID x 3/4" OD
Large: 3/4" ID x 1.0625" OD
Length Segments: 50ft
